KEEP CHRIST IN CHRISTMAS

As we enter this Christmas season, it is important to remember the reason for our celebration during this holiday. It is so easy to become wrapped up in our holiday activities that we forget God sent His son two thousand years ago to redeem sinful mankind. It's important to stay focused and not put Jesus on the back burner during this holiday. Take time to attend worship services and tune-in to the special programs scheduled on your COACB station.

Luke 2:7 And she brought forth her first born son, and wrapped him in swaddling clothes and laid him in a manger because there was no room for them in the inn.

New Transmitter Arrives

No Santa Claus didn't deliver it but it sure seemed like Christmas when the freight company finally delivered the new high power transmitter for Marion. We were expecting the transmitter three weeks earlier. It had stayed on a freight dock awaiting shipping for over a week. Then it arrived in Columbus, Ohio where it waited for three more days before finally making it to Marion.

NOW FOR THE SHOCKER Our transmitter was shipped by Air. Yes you read that right AIR. The transmitter is a very delicate piece of electronic equipment that cost \$14,000 and had to be shipped by air to insure that it would arrive in good working condition so you can see air shipment does not necessarily mean quick.

We are now waiting on the tower crew to mount the new antenna so Marion's new transmitter can be turned on. When we change transmitters we will also change channels so you must remember that if you are watching by antenna to be sure to have your TV receiver to rescan for digital channels. It will then update your list of available channels. With all the new digital channels available you should rescan every couple of weeks so that your receiver can add new channels as they become available.

NEW TELEPHONE SYSTEM

A new telephone system was installed over the Thanksgiving Holidays. The new systems will give callers direct access to key station personnel by simply entering their extension number. The person called really doesn't have to be in the building. If they are away from their desk, they choose to have calls go to their voice mail box or have the system route their calls directly to their cell phone anywhere in the world. There is now no reason for any key personnel to ever miss an important call.
