## MAJOR POWER INCREASE

**M**arion and Delaware completed channel changes and major power increases.

MARION IS NOW CHANNEL 45 AND IS OPERATING AT 15,000 WATTS. THIS IS THE MAXIMUM POWER THAT ANY CLASS A STATION CAN OPERATE. DELAWARE IS NOW CHANNEL 39 AND IS OPERATING AT 2,500 WATTS. THIS IS ALMOST THREE TIMES ITS PREVIOUS POWER LEVEL. REPORTS FROM VIEWERS HAVE BEEN FANTASTIC. I GUESS YOU CAN SAY WE ARE REALLY REACHING OUT AND TOUCHING PEOPLE..

After the changes, people had to rescan for channels. Viewers report after rescanning they found many more digital channels than they had ever believed. One viewer reports after scanning, he now receives 60 digital channels. Further, he said he is showing friends and relatives how they too can receive the COACB stations along with all the other digital channels available for free by just using a very inexpensive antenna.

## NEW COACB CHANNELS

**N**ew digital channels are being added daily as stations rush to use their excess band width. Eventually most TV stations will air one HD digital and at least two SD channels. The COACB has decided that instead of carrying an HD stream, it will carry six SD channels in Marion, Delaware, and Kenton. The equipment has been purchased and will be installed next week. Yes you must rescan to add the new channels on your TV. Once the equipment is installed and turned on, we will start airing an announcement telling people to rescan to add the two new channels. The COACB is not changing channels so if people do not rescan, they will continue to receive the four COACB channels that they now receive. They will not receive the two new ones until they rescan for channels.

## COLUMBUS UPGRADE

**A**ttention Columbus Viewers, We are making a major upgrade for the Columbus station to eliminate a reoccurring interference problem with our studio to transmitter link.. Once completed in the early part of January viewers will notice a big improvement with the signal being much more reliable

## Got Dish?

**W**e have had several people tell us they have switched to satellite and they now miss us. The solution is really very simple. Dish high definition receivers also have an antenna input for local digital channels. Simply connect an antenna to this input then go into the Dish setup menu and have it scan for local channels. All local channels will then be added to the channel program list. Once programmed, any time you want to watch COACB stations, simply punch in 39 on your satellite remote control.

If your digital ready television receives the Dish signal on channel 3 simply add a splitter (\$1.00). Splitters can operate as a combiner. To use it as a combiner connect the input of the splitter to the antenna input on the television. The output of the Dish will be connected to one of the outputs on the splitter. An antenna will be connected to the other output on the splitter. Now you can receive the dish on channel 3 and over the air signals on their assigned channel. Be sure to go into the television setup menu and tell the television you are using an antenna because frequencies of cable channels are different from over the air channels.

## New Years Resolution

By Laura Williams

**M**any of us make new years resolutions for things we want to change or make better in our lives. Here are a few scriptures that may help you.

If you need wisdom about something:

James 1:5 says "If any of you lack wisdom, let him ask of God, that giveth to all men liberally, and abraideth not; and it shall be given to him."

If you are struggling with finances:

Philippians 4:19 says "But my God shall supply all your needs according to His riches in glory by Christ Jesus."

If you need peace about a situation:

Matthew 11:28-30 says "Come unto me, all ye that labor and are heavy layden, and I will give you rest. Take my yoke upon you, and learn from me; for I am meek and lowly in heart: and ye shall find rest unto your souls. For my yoke is easy, and my burden is light."

Seek the Lord for all your needs. He loves and cares for you so much and He wants the best for you. I pray that you have a blessed new year!
