Happy  
LABOR DAY

## WE NEED TO HEAR FROM YOU

DAVID AIKEN

When I was a young man, anyone could send a letter and be reasonably sure that the recipient would receive it. The post office would go to great extremes to insure that the mail always did get to the recipient. In fact you could put the person's name and the city where the person lived and it would be delivered. One story printed in Ripley's Believe It Or Not told of a grain of rice that had the address of the recipient printed on it and affixed to a postage stamp. Although the post office had to use a magnifying glass to read the address, the grain of rice was delivered. In another case, someone put a stamp and an address on a ten dollar bill. Yes the post office delivered it. Sadly those days are now gone forever.

Now the US Post Office uses automated equipment to sort the mail and if there is any problem with the address, the mail is automatically returned to the sender as undeliverable. Let us say that the recipient lives in an apartment building in Apt. 21 and moves to apartment 23 in the same building. He or she must fill out a change of address form for the move and then for a short period of time their mail addressed to Apt. 21 will be forwarded to Apt 23. After that time expires, their mail addressed to Apt. 21 is undeliverable and sadly there is no way to argue with an automated mail sorting machine.

We try very hard to keep our mailing list up to date but we still often receive calls from people saying they did not receive their newsletter. Please keep us up to date on your current address because if the address is not correct, the automated equipment will deem your newsletter undeliverable.
