Our Father In Heaven

On Father's Day this year, don't forget to celebrate our Father in Heaven. If it wasn't for him, none of us would be here. Fathers are truly special. Think of all our Father has done for us. He gave us His only Son to die for our sins. Could you imagine giving up your only child so the rest of the world could live? That is how much He loves us. So when you start to feel down and out just think about how much your Father loves you. Every father in this world should live their life and love their children the same way our Father in Heaven does. If this was to happen, I think this would be a far better world for us to live in. Most children are raising themselves with TV and games because both parents are working or there is only one parent. We need to keep praying for the men in this world to all become the good Christian leaders that this world needs. We would all be so much better off.

Studio Updates Are Here

Updates have begun! So long to the EIGHT televisions that ran across the top of Study C Control Room equipment. We have been able to streamline all of our outputs onto ONE monitor. That's right, we can see all 16 outputs on one consolidated screen. This allows us to monitor all the channels and make sure everything is working A-OK. We have also updated some of the hardware for the master controls. That is something that seems to constantly be changing, the last new piece of equipment is the grand baby of Studio A. We got a high functioning new camera that has 4k technology. We want you to have the best view possible of all of our productions. Hope you have enjoyed this little tour of the studio. Stop by Mon-Fri 9am-5pm to see for yourself. All are welcome.

Spring Cleaning Has Begun

Here we are in June. already, where is the year going? I can tell you. it is going fast here

at the station. We upgraded some equipment and started some outside sprucing up to prepare for the summer. Kayleigh and Tyler went out and painted the old satellites a fresh coat of white paint. They are looking better than they have in several years now. Kayleigh also took the time to organize our bulletin boards in the studio hallway. You can now read all the cards, and newspaper articles, and look at all the great memories. There were some pictures of the good ole days when the station got its start. Make sure you stop in and look around at all the great changes that have been made. Amos would be glad to give you a tour to show you all the

updates and upgrades. We want you to see where your donations are going. We appreciate all the donations that are sent our way. Thank you so much for supporting Christian TV!
